

**Álvaro Barbosa (Angola 1970)** is an Associate Professor at the School of Arts from Oporto's Portuguese Catholic University (UCP), the Portuguese leading research and educational institution in the field of Science and Technology applied to the Arts. He holds a PhD degree in Computer Science and Digital Communication from Pompeu Fabra University in Barcelona, Spain and a Graduate Degree in Electronics and Telecommunications Engineering from the Aveiro University in Portugal. His activity is mainly on the field of Music Technology, in which he worked for five years as a resident researcher at the Barcelona Music Technology Group (MTG). His recent research has mostly been developed at the UCP's Research Center for Science and Technology of the Arts (CITAR) and is focused on the study and development of experimental Network Music Systems, as well as in Interactive Sound-Design. He has also developed several artistic projects with special emphasis in Music Composition, Interactive Installations Design and Computer Animation. His work as a researcher and an Artist has been extensively published internationally. In 2010 he undertook a Visiting Scholar Position at the Center for Computer Research in Music and Acoustics (CCRMA) from Stanford University and in 2011 started collaborating as a Visiting Professor with the University of Saint Joseph in Macau.
